May 2, 2022

Dear Local President,

AEA will continue using our “**Green Program**” for the 2022 Delegate Assembly. This program promotes good stewardship of our organizational resources by reducing the printing and postage costs associated with the delegate materials.

We are providing each local president with one 2022 Delegate Assembly program book which includes all materials required to conduct the business of the assembly and to make informed decisions.

We encourage you and your delegates to use the electronic materials that are available at the AEA website, [www.arizonaaea.org](http://www.arizonaaea.org). You will find these electronic materials by clicking on the **2022 Delegate Assembly logo** on the right side of the AEA homepage. Delegates are encouraged to download and read the materials prior to attending in order to make informed decisions.

We will also have a Resource Center at Delegate Assembly at the back of the Grand Coronado ballroom where delegates can transfer all the materials electronically to their laptop computer or view materials electronically or in print. Internet access will also be available on the Delegate Assembly floor.

I look forward to working with you at Delegate Assembly.

Sincerely,

A handwritten signature in black ink, appearing to read 'Joseph H. Thomas', with a long horizontal flourish extending to the right.

Joseph H. Thomas, President  
Arizona Education Association
